Postcards and paper puzzles

Do you remember the last time you congratulated your family and friends not with a standard store-bought card, but with a real, original, homemade card?

Give a piece of your heart's warmth along with a regular gift by cutting and gluing paper cards! They stand out from regular greeting cards because they are made with special tenderness by your hands and therefore have a unique charm.

In addition, in this section you can also find paper puzzles of various levels of complexity and colors. Save money and cut out paper puzzles for your child yourself!

All paper cards and puzzles are completely freely available to you.
